PROFILE SUMMARY

QA Automation Engineer with 4.9+ years of experience in Software Testing, including 3 years of Manual Testing and 2 years of Playwright-based Test Automation. Skilled in Functional, Regression, Smoke, API Testing, SQL Validation, Test Automation Framework development, Defect Tracking, and Release Validation. Experienced in SDLC, STLC, Agile methodologies, CI/CD pipelines, and developing Playwright automation frameworks using TypeScript and Page Object Model (POM).

TECHNICAL SKILLS

Automation & Frameworks: Playwright, Test Automation Framework, Page Object Model (POM), Fixtures, Assertions, Parallel Execution

Testing: Functional Testing, Regression Testing, Smoke Testing, API Testing, Cross-Browser Testing

Programming & Database: JavaScript, Typescript, SQL, MySQL, PostgreSQL

Tools & CI/CD: Postman, Git, GitHub Actions, Jenkins, JIRA

Methodologies: Agile Scrum, SDLC, STLC, Defect Tracking, Release Validation.

PROFESSIONAL EXPERIENCE

Senior Analyst — Wipro Limited, Coimbatore | Sep 2021 – Present

- Designed and executed Functional, Regression, Smoke, Sanity, and End-to-End test scenarios for web applications.
- Developed and maintained Playwright automation framework using TypeScript and Page Object Model (POM). Automated and maintained 100+ regression test cases covering critical business workflows.
- Participated in SDLC and STLC activities including Requirement Analysis, Test Planning, Test Execution, Defect Tracking, Release Validation, and Production Support.
- Reduced manual regression testing effort by approximately 40% through automation.
- Utilized Fixtures, Assertions, Locators, Trace Viewer, Inspector, and Codegen for automation development and debugging.
- Performed REST API Testing using Postman and backend data verification using SQL queries. Executed Cross-Browser Testing across Chromium, Firefox, and WebKit.
- Integrated automation suite with GitHub Actions and Jenkins CI/CD pipelines. Collaborated with Developers, Product Owners, and Business Analysts in Agile Scrum teams.

PROJECTS

Event Management & Ticket Booking Automation Framework

- Developed and maintained a Playwright automation framework using TypeScript and Page Object Model (POM).
- Automated end-to-end workflows including Event Creation, User Registration, Ticket Booking, Payment Validation, and Booking Confirmation. Performed REST API Testing using Postman and backend data verification using SQL queries.
- Implemented reusable Fixtures, Assertions, and utility functions to improve framework maintainability and scalability. Executed Cross-Browser Testing across Chromium, Firefox, and WebKit browsers.

E-Commerce Shopping Website Automation

- Automated critical business workflows including Login, Product Search, Cart Management, Checkout, Payment, and Order Confirmation using Playwright.
- Designed reusable Page Object classes and utility methods for scalable test automation. Executed Functional, Regression, Smoke, API, and Cross-Browser testing.
- Validated backend data using SQL queries to ensure data consistency and integrity. Integrated automated test execution with CI/CD pipelines using GitHub Actions and Jenkins.

EDUCATION & ACHIEVEMENTS

- Bachelor of Technology (B.Tech) in Information Technology — KSR Institute for Engineering and Technology (2017-2021)
- Received Best Performer recognition and performance-based promotion for delivering high-quality automation solutions.
- Unit-level awards for automation excellence and significant contributions to team productivity and quality improvements
